-  Holistic campus life with activities for intellectual, spiritual and physical development
-  Hands-on learning through real-life cases, simulations, role-plays etc
-  Curriculum that blends traditional wisdom with modern scientific research
-  Focus on developing character for leadership and impact

Chairman's Statement

"I believe, at the heart of any societal evolution lies a spiritual and moral transformation of its people. Along with a firm grip on modern sciences, we want to nurture a prophetic character and develop leadership qualities in our students."

About the Program

At Al-Qadir College, we seek to restore the tradition of acquiring knowledge which was at the centre of premodern Islam. We aim to produce farsighted individuals who are firm in conviction and are leaders in innovation. We seek to harness a generation of future professionals and leaders who take inspiration from the luminaries of the past. Al-Qadir College foresees its graduates, engaged in an action-based approach to address the challenges of modern times. To this end, we aspire to reimagine the contemporary paradigms of leadership and management in light of the Prophetic example; in order for students to engender the character traits of humility and service to humanity.

Our Team

Program Design

B.Sc. (Hons.) Management Affiliated with GCU-Lahore

The program's primary aim is to equip its students with innovative tools to learn, collaborate and communicate with each other. Our B.Sc.(Hons.) degree in Management is designed to nurture students and provide them with a holistic learning approach, inspired from the Prophetic example, that emphasizes on building leadership qualities.

Our curriculum is highly interactive in nature, based on the latest research in modern pedagogical practices while rooted in tradition, to maximize learning and innovation. At Al-Qadir, we aim to empower the next generation of leaders and professionals with a unique and diverse combination of courses and interactions.

Notable aspects of our program include

- ✓ Personal development and character building
- ✓ Interactive lesson plans and classroom discussions
- ✓ Case studies taught by some of the most renowned case method instructors in Pakistan
- ✓ Simulations that encourage students to critically analyze problems in real-time
- ✓ Focus on research and experiential learning
- ✓ Emphasis on enhancing inter-personal skills and entrepreneurial capabilities along with emotional intelligence
